

Asset Management UK

Mr Laymore Hattens
Principle Managing Director & Co-Founder
Asset Management UK (llp)

Dear prospective client,

I would like to take this opportunity to thank you for showing interest in Asset Management UK.

I founded this company in June 2016 in the wake of the Brexit result, not only because I wanted a sustainable business, but because I knew clients would want certainty.

I would like you to have confidence in choosing us as your primary Asset Manager, not only because of our extensive experience (all MDs were previously involved in investment banking in senior positions, and all investment employees at all locations have studied Economics, Maths, or a relevant subject and have experience in investment banking, capital management and/or asset management.

We strive to be your first choice for all such needs. We operate in both London (our global and EMEA HQ) and, more recently, Asia from our Singapore office.

We have an experienced AVP or Analyst at hand 24/7 at all locations to handle all your needs. All clients are given a number to contact them on, whenever the need/s arise. At the heart of our ethos is our desire for trust, because we know (from experience) the necessity of being able to trust those dealing with finance, your prized possessions. As Principle Managing Director, it is my responsibility to ensure that I can build it.

My colleagues and I would love to meet with you for a friendly chat to discuss how we can help you, so get in touch with me via e-mail if we can be of any assistance at all.

Sincerely,

Mr Laymore Hattens
Principle Managing Director and Co-Founder
